Examiner's Comment

1. Claims 1-5 and 10-13 are allowable. Claims 6-9 and 14-15, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between inventions I (Figure 3B) and II (Figure 10), as set forth in the Office action mailed on June 25, 2008, is hereby withdrawn** and claims 6-9 and 14-15 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Examiner's Statement of Reasons for Allowance

2. Claims 1-15 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the primary reason for allowance is that the prior art fails to teach or reasonably suggest a lens plate attached to a front of the housing that mounts a plurality of lens, a filter plate adjacent the lens plate that mounts a plurality of filters, a camera plate adjacent the filter plate that mounts a plurality of imagers, wherein the radiation that passes through each of the lenses passes through a respective, optically aligned one of said plurality of filters onto a respective, optically aligned one of said imagers, wherein each of the filters is user-selectively changeable.

As for claim 10, the primary reason for allowance is that the prior art fails to teach or reasonably suggest first means for mounting a plurality of lenses in the housing, a second means for mounting a plurality of filters adjacent the plurality of lenses, third means for mounting a plurality of imagers adjacent the plurality of filters, wherein the radiation that passes through each of the lenses passes through a respective, optically aligned one of said plurality of filters onto a respective, optically aligned one of said imagers, wherein each of the filters is user-selectively changeable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
